

Harden-Hardin-Harding Lineage Data Form

Use this form to submit your Harden-Hardin-Harding family line. This information will be used to construct a pedigree chart which will be posted on our yDNA web site. The combination of grouping by similar yDNA, pedigree information and traditional genealogical research is multiplied in value when shared with all of the researchers in our surname project. If you have any questions, email Bill Hardin at whardin@carolina.rr.com. If you are worried about identity theft, feel free to leave information about living individuals blank. I have chosen to publish locations only down to the state level and dates only to the year on our web page. You will obviously want to share city and county locations and possibly months and days when you communicate with other researchers. This form will be sent by email when you hit the ENTER key or click on the SUBMIT DATA NOW button at the bottom of the page. For that reason, you will need to use the TAB key or your mouse, to move through the form. Your name and email address are required. Any other field may be left blank.
